## Multi Camera Solution

to Reduce Risk, Increase Safety of Your Fleets

360°

In the constantly evolving transportation landscape, there remain several limitations of standard dashcam installations. Lack of visibility, increasing compliance regulations, and the growing instances of freight theft require managers to gain 360° visibility into their fleet operations.

ZenduCAM 360 - Multi-Camera Solution leverages an array of HD video cameras with an advanced multi-channel DVR, built-in GPS, 4G, and AI capabilities that enable fleet managers to gain 360°, visibility into their fleet operations in real-time.

UP TO 8-CHANNEL CAMERA SYSTEM
for side, rear and internal camera set up

AI AND ADAS-ENABLED
monitor and address high-risk behaviour to prevent accidents before they happen

SUPPORTS LIVE STREAMING
video playback & real-time event upload allow you to solution events in the moment

AGILE HARDWARE
Hardware is configurable, scalable, and customizable for different vehicle requirements

Stream Live or Play Back Video in High Definition

Our **ZenduCAM 360 - Multi-Camera** supports automated recording and video retrieval. Paired with an advanced 4G-enabled DVR, the camera ensures continuous recording of rolling footage, not just significant events

Reduce Blind Spots with 360° Visibility

This dashcam combines powerful front, rear, near, and offside camera setup in addition to driver-facing and road-facing cameras for a complete 360° fleet monitoring experience

Protect your Fleet from Theft and Vandalism

If your fleet is vandalized or burglarized, the cameras on both the inside and outside of the vehicle (or cargo) will capture activity on video

Direct integration with ZenduCAM Platform

Our ZenduCAM platform helps fleet managers track their vehicles and get insights on their operations in real-time. Live video and analytics through our cloud-based platform, can be integrated in any third-party system seamlessly
