

Contents - Vol. 13, Fasc. 3-4

<i>S. Č. Nešić</i> A Generalization of a Fixed Point Theorem of B. Fisher	201
<i>Z. Finta</i> On Approximation by Modified Kantorovich Polynomials	205
<i>M. Raeva</i> On the Number and Location of Limit Trajectories of a Class of Autonomous Systems	213
<i>N. Dernek</i> On a Regular Initial Boundary Value Problem and Finite Integral Transformations	223
<i>G. Čobanov</i> Existence for Landesman Lazer Boundary Value Problems via Variational Inequalities	235
<i>D. Kolev</i> Integrability for a Nonlinear Electrodynamical Model of Three Conservation Laws	247
<i>L. Dechevsky, J. Ramsay, S. Penev</i> Penalized Wavelet Estimation with Besov Regularity Constraints	257
<i>L. Galué</i> Evaluation of Some Integrals Involving Hermite Polynomials	377
<i>B. Bojanov, L. Gori</i> Moment Preserving Approximations	385
<i>V. H. Hrostov, N. V. Kjurkchiev</i> Bounds and Numerical Methods for the Unique Positive Root of a Polynomial	399

P. Rusev

On the Asymptotics of Functions Related to Tricomi's

Confluent Hypergeometric Function 409

P. E. Parvanov

An Estimation of the Best Monotone Spline Approximation

with the Averaged Moduli of Smoothness 419
